ÖNSÖZ

MİMAR SİNAN ÜNİVERSİTESİ, 1882 yılında, "SANAYİ-İ NEFİSE MEKTEB-İ ALİSİ" adı ile kurulmuş ve eğitime 1883 yılı Mart ayında başlamıştır. Kuruluş, 1928 yılında GÜZEL SANATLAR AKADEMİSİ adını ve yüzüncü yıldönümünde ise, bugünkü adını almıştır.

Adını taşımakla onur duyduğumuz Büyük Yapı Ustası MİMAR SİNAN' ın hayatını, sanatını ve eserlerini layıkı ile araştırabilmek ve mimarimize etkilerini belirleyebilmek amacı ile MİMAR SİNAN ARAŞTIRMA MERKEZİ' ni kurmuş bulunuyoruz. Böylelikle, bugüne kadar çeşitli nedenlerden ötürü gerçekleştirilemeyen bir çalışma başlatmayı ve bu alandaki büyük boşluğu doldurmayı ümit etmekteyiz.

Mimar Sinan 1490 yılında doğmuştur. Bu devirde Osmanlı İmparatorluğu ve dolayısıyla Osmanlı Uygarlığı doruk noktasında bulunuyordu. Sinan, dört padişah döneminde hizmet etmiştir: Yavuz Sultan Selim, Kanunî Sultan Süleyman, II. Selim, III. Murat. 1588 yılında 99 yaşında iken ölmüştür. Eserleri ile ilgili olarak kaleme aldığı Tekziret-ül-Ebniye'de, 73 Cami, 49 Mescid, 50 Okul, 7 Dar-ül-kurra, 17 İmare, 5 Hastahane, 7 Sukemeri, 7 Köprü, 7 Saray, 18 Kervansaray, 5 Gıda Ambarı, 31 Hamam, 18 Türbe hakkında bilgi vermektedir. Eserlerinin toplamı 312 mertebesine erişmektedir. MİMAR SİNAN ARAŞTIRMA MERKEZİ, bu kültür hazinelerinin doğduğu dönemi, 1539 ilâ 1588 yılları arasında yer alan SİNAN DEVRİ' ni, Mimarlara, Sanatçılara, Mimarlık ve Sanat Tarihçilerine ve aynı zamanda Kamu Oyuna sunabilmek için elinden gelen çabayı gösterecektir.

Bu vesile ile Profesör Muhlis Türkmen'e, kuruluşunu bütün imkânlarımla gönülden desteklediğim Merkez'in ilk yayını olan bu eseri hazırladığı için teşekkür etmek isterim. Büyük Yapı Ustasının sihirli dokunuşundan nasib alan kentlerimizde topografik değerleri kullanışındaki başarıyı, gökçizgisini belirlemekteki akıcılığı desenleri ve çizimleri ile yansıtmaktaki ustaca yaklaşımlarından ötürü, Profesör Türkmen' i ayrıca kutlarım.

Profesör MUHTEŞEM GİRAY
REKTÖR
MİMAR SİNAN ÜNİVERSİTESİ

FOREWORD

Today's MİMAR SİNAN UNIVERSITY has been founded in 1882 under the name of "SANAYİ-İ NEFİSE MEKTEB-İ ALİSİ", while the education has started in March, 1883. Later, in 1928, the name was changed to the ACADEMY OF FINE ARTS. In its 100 th Anniversary the institution took its actual name.

For the Great Master Builder MİMAR SİNAN (Sinan the Architect) by whose name our institution has been honoured, we have founded the "MİMAR SİNAN RESEARCH CENTER": We are planning to carry on detailed research on his personality, his works and his influence on our architecture: The concerning scientific approach has been unfortunately so far neglected due to several reasons. The outcomings of this deed will be regularly published.

The Great Master Builder Sinan the Architect was born in 1490, when the Ottoman Empire and henceforward the Ottoman Civilization were at their peak. Sinan served under four emperors: Selim I. or Yavuz Sultan Selim, Süleyman I or Kanunî Sultan Süleyman, Selim II, and finally Murat III. He died in 1588 at the age of 99. In his own book, Tekziret-ül-Ebniye (Document on Buildings) he has presented the encounter of his works: 73 Mosque, 49 Masjids (Small Mosques, usually wooden structures), 50 Schools, 7 Dar-ül-kurra (Schools for the study of the Holy Koran), 17 Civic Centers, 5 Hospitals, 7 Aqueducts, 7 Bridges, 7 Palaces, 18 Caravanserais, 5 Silos, 31 Baths, 18 Tombs; totalling 312. The MİMAR SİNAN RESEARCH CENTER, will try its best to present this cultural treasure, namely the SİNAN PERIOD extending between the years 1539 and 1588, to the Architects, Artists, Historians of Architecture and of Art, and to the Public as well.

On this occasion, it is my pleasure to extend my warm thanks to Professor Muhlis Türkmen, for completing this work in due time, to be the first publication of the Center which I have supported its foundation by all means. I would like also congratulate Professor Türkmen for his mastery at interpretation of the Great Master Builder's approach and style in enhancing the topographic character and in determining the skyline of the cities endowed with his majic touch.

Professor MUHTEŞEM GİRAY
RECTOR
MİMAR SİNAN UNIVERSITY

SUNUŞ YAZISI

Dâhi Mimar Koca Sinan'ın şerefli adını taşıyan Üniversitemiz, Rektörümüz Sayın Profesör Muhteşem Giray'ında öncülüğü ile, "Mimar Sinan Araştırma Merkezi" ni kurmakla şeref duyar. Bu büyük isme lâyık olmak amacıyla araştırma merkezinin çalışmaları yürütülecektir. Özellikle, bugüne kadar geç kalmış olan Koca Sinan ve eserleri üzerindeki çalışmalara da, en kısa zamanda başlanmasını ve başarılı olmasını dilerim.

Kıymetli meslekdaşım Prof. Muhlis Türkmen'de "Desenlerle Mimar Sinan" adlı bu albümün ön sözünde belirtiyor: Gerçekten bugüne kadar Mimar Sinan'a lâyık, onun kişiliğini, yapıtlarını tanıtan büyük bir yayın hazırlanamamıştır.

Hatırlıyorum, 1939 – 1940 senelerinde bu anlamda büyük bir yayının hazırlıklarına başlanmıştı. Bu eserin metin kısmını Prof. Fuat Köprülü, rölöve ve resimler kısmını da Prof. Albert Gabriel yürüteceklerdi. Prof. Köprülü kendisine yardımcı olarak Rıfkı Melul Meriç'i, Prof. Gabriel de yardımcı olarak Y. Mimar Ali Saim Ülgen'i seçmişlerdi. Bu dört mehterem kişi de bugün hayatta değiller. Eserin kapak baskısı provaları dahi bugün elimizde olduğu halde, eser maalesef tamamlanarak basılamamıştır. Çalışmaların nerede ve kimlerde olduğunu bilmiyoruz. Temenni ederiz, bu çalışmaları da değerlendirmek imkânına sahip olalım.

Kuruluş çalışmalarını henüz tamamlamamış bulunan "Mimar Sinan Araştırma Merkezi" çok arzulanan bu büyük eserin hazırlıklarına kısa zamanda başlayacaktır.

Sayın Prof. Muhlis Türkmen, "Desenlerle Mimar Sinan" adlı bu albümü ile Mimar Sinan Araştırma Merkezimizin ilk yayınının şerefli müellifi olmaktadır. Kendisini bu kıymetli çalışmasından dolayı tebrik eder, araştırma merkezimiz adına teşekkürlerimizi sunarız.

Profesör FERİDUN AKOZAN
MİMAR SİNAN ARAŞTIRMA MERKEZİ
MÜDÜRÜ

INTRODUCTION

Our University possessing now the honorable name of the great Master Mimar Sinan is proud to establish "Mimar Sinan Research Center" sponsored by our Rector Prof. Muhteşem Giray. We are convinced that the research works of our Center will be properly carried on in the aim to merit this famous name of the great Turkish Architect Sinan.

In the preface of the album "Mimar Sinan by sketches" prepared by my dear colleague Prof. Muhlis Türkmen it has been put forward that up to date no great and valuable publication has been done in order to emphasize the personality and the valuation of the works created by Mimar Sinan.

During the years 1939 - 1940 an important research had been started for the publication of such a work. Prof. Fuad Köprülü was responsible for the articles and Prof. Albert Gabriel for the illustration and surveys. Mr. Rıfkı Melul Meriç and Mr. Ali Saim Ülgen were respectively selected as their associates. But unfortunately all these personalities do not live anymore among us.

We still possess the final proof for the cover page of this publication but it is regretful to say that this great work had not been completed and published. We do not even know now where to find all these old articles and sketches. But we do hope that we will have the opportunity to find them.

Mimar Sinan Research Center has just finished all the studies concerning the foundation of its establishment and all necessary efforts for the publication of this valuable work will soon be undertaken.

With his album "Mimar Sinan by sketches" Professor M. Türkmen will have the honour to be the first author of Mimar Sinan Research Center. Taking this opportunity, our Center would like to present all our gratitude and all the warmest thanks to our dear colleague Professor Muhlis Türkmen.

Professor FERİDUN AKOZAN

MİMAR SİNAN RESEARCH CENTER

DESENLERLE MİMAR SİNAN

GİRİŞ

Mimar Sinan Üniversitesi olduğumuz günlerde sayın Rektör Muhteşem Giray'ın sohbet biçiminde gelişen bir söyleşinin sonunda Mimar Sinan'la ilgili desenleri içine alan bir kitabı hazırlamamı isteği çalışmalarımın bir başlangıç noktası oldu.

Türk tarihinin ve dünyanın en ünlü anıtlarının mimarı, ustamız, üstadımız büyük Sinan ile ilgili küçük çaptaki bu girişim bile cesaret, güç, sorumluluk ve ciddiyet isterdi.

Açıkça söylemek gerekirse ve bildiğim kadar Sinan ve yapıtları hakkında bu güne kadar değerini veren bilimsel bir araştırma gerçekleşmemiş ve bu dehanın gerek kişiliğini ve gerekse tüm eserlerini teker, teker olgun ve sıhhatli bir şekilde günümüze mal etme yolları aranmamıştır.

Öğretim kurumlarının ve mimarlar camiasının görevi olan bu konunun ele alınması işinin bir gün istenilen çap ve anlamda gerçekleşeceğine eminim.

Ben şahsen bu muazzam boşluğa ancak bir nokta koyarak ve bu noktayla Sinan'ın eserleri ve eserlerin yer aldığı fiziksel çevreyi hissedebildiğim kadar nakletmeye çalıştım.

Gayem tüm eserleri vermekten ziyade usta Sinan'ın büyüklüğünü ifade eden, estiren bir ses, bir müzik, bir anlatım getirmek idi.

Bu düşünceden hareketle sunulan desenlerin bir mimarın sade ve mütevazı bir çizgi aktarmaları olarak kabulünü bekler, ayrıca beni bu çalışmaya teşvik eden sayın Rektör ve değerli meslektaşım Prof. Y. Mimar Muhteşem Giray'a teşekkürlerimi bildirirken çizgilerimin konuları ne ölçü ve etkide aktaracağını bilemiyorum. Her şeye rağmen azda olsa birşeyler nakladebilmek ve anlatabilmek beni mutlu kılacaktır.

İSTANBUL 3 MART 1984
Prof. S. MUHLİS TÖRKMEN

ARCHITECT SINAN in SKETCHES (DRAWINGS)

PREFACE

During the days, as we were established as MIMAR SINAN UNIVERSITY, at the end of an informal conversation, our Rector Prof. Muhteşem Giray's proposal for my preparation of sketches and drawings covering Architect Sinan's works, has been my starting point of my work.

Such a small work as this about the architect of the famous masterpieces in the word and the Turkish history, our master and professional superior, Sinan the Great needs courage, strength, responsibility and serious dedication.

As far as I am concerned and if the facts are put openly, no work or research has been prepared covering SINAN and his architecture which values his genius, character, including his building one by one in a nature and healthy way reworking them to our age and days.

I am confident that one day educational institutions and architectural establishments will fulfill their duty and achieve this task in the necessary spirit and boundaries.

I, personally have put a dot to this huge emptiness, and tried to reflect what I felt of SINAN's works and the physical environment which his works are in, by this dot.

My aim, was to give the music, the message, the voice which tells the greatness of SINAN the master, instead of giving all his work.

I expect these works (drawings) to be accepted as an architect's simple and humble sketches motivated from these thoughts, and thank my colleague Rector Prof. Arch. Muhteşem Giray, while keeping my anxiety about giving all with my drawings.

To give some although little, reflecting, telling in spite of everything will make me happy.
